

## GREENPOWER F24/F24+ TECHNICAL BULLETIN - FEBRUARY 2019

### IMPORTANT INFORMATION FOR F24/F24+ COMPETITORS

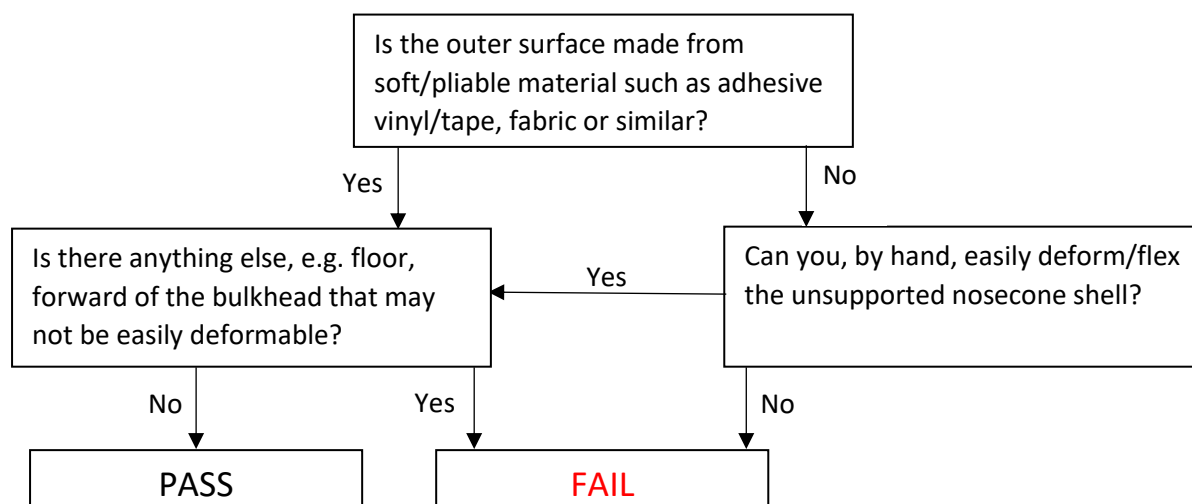

#### Subject: Nosecone Structures

We would like to remind all teams of the following requirement contained in the 2019 F24/F24+ Technical & Sporting Regulations:

**T8.1. Anything forward of the bulkhead in T7.1 must be easily deformable.**

Please be aware that from the 2019 season onwards the following guidance on assessment of nosecone structures will be issued to scrutineers. Teams not conforming to this requirement will, at the discretion of the Chief Scrutineer, be excluded from events.

#### Nosecone Deformability Assessment

This bulletin has been issued in the interests of safety.

Should you require further help or advice regarding this matter please contact:
